Profile

UI/UX professional with 9 years of experience designing and developing web and mobile applications, delivering intuitive and user-centric digital experiences. Strong in visual design, responsive UI, usability, accessibility and close collaboration with development teams.

Selected Work

MiTicket / MiCOM / MiOrg — Internal Business Platforms

Context: Multiple internal product modules requiring consistent experiences across access, workflow, data and operational screens.

Contribution: Designed and improved user journeys, forms, tabs, dialogs, data grids, conditional states, validation and overview experiences; collaborated with engineering and stakeholders.

Value: Improved clarity and consistency for complex enterprise workflows and supported reliable implementation.

Porter Pipe & Supply — B2B eCommerce

Context: B2B eCommerce web and mobile application with ERP product information and user-level customizations.

Contribution: Participated in requirements, analysis, design, development and testing; worked on dashboard layouts, visual direction and responsive implementation.

Value: Supported responsive interfaces and cross-browser quality.

Medineed — HIMS / KIMS

Context: Hospital administration application supporting corporate and multi-specialty hospital workflows.

Contribution: Worked on layouts and dashboard color schemes, HTML5/CSS3 implementation, cross-browser checks and client-side validation.

Value: Focused on usability and dependable presentation for healthcare workflows.
